VAISHNAVI JAISWAL

AI/ML Engineer · Software Developer · Python, C++ & SQL
+91 94725 80001 | vj.vaishnavijaiswal15@gmail.com | Bengaluru, India
LinkedIn | GitHub | HackerRank

SUMMARY

Third-year CSE student seeking AI/ML engineering and software development internships and full-time roles. Built a real-time fraud-detection system with drift-aware online learning, published a first-author paper on ResNet-50 pill recognition (94% / 88% prototype accuracy), and currently interns in AI/ML. Strong DSA foundation (HackerRank 5-Star Python) with hands-on work across machine learning, REST APIs and algorithm visualisation.

EDUCATION

RV Institute of Technology and Management, Bengaluru *Aug 2024 – May 2028*
B.Tech, Computer Science & Engineering | CGPA: 7.9 / 10.0
Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

PROJECTS

FinFraud Shield — Real-Time Fraud Detection Middleware *Oct 2026*
Python · River (online learning) · ADWIN drift detection
- Built a real-time fraud-detection middleware that scores each transaction as it arrives, as a deployable service layer rather than an offline notebook model.
- Added a continuous-learning layer (River + ADWIN concept-drift detection) so the model keeps adapting as fraud patterns shift, instead of degrading after one training run.

Replica — Paper-Reproduction AI Agent (Nebius x NVIDIA Global AI Hackathon) *Oct 2026 · In progress*
LLM agent · GPU compute on Nebius · Solo entry
- Building an AI agent that reads a research paper, writes and executes code for one small experiment on a Nebius GPU, and returns an evidence-backed verdict: reproduced, not reproduced, or can't tell.

PillDetect AI — Research Paper (First Author) *May 2026*
Python · Flask · ResNet-50 · REST API · DOI: 10.5281/zenodo.20453863
- Wrote and published a paper on a Flask platform that pairs ResNet-50 image-based pill recognition with a drug-interaction checker rating severity, exposed through a REST JSON API; supervised by Gajanan M. Naik.
- Evaluated the prototype on five NIH DailyMed pill profiles: 94% accuracy (manual input) and 88% (image input).

Drone Delivery Path Planner — C CLI & Web Visualizer *2025 – 2026*
C · JavaScript · HTML5 Canvas · Chart.js · github.com/vaishnavijaiswall/drone-path-planner
- Implemented BFS, DFS, Dijkstra's and A* from scratch in a C CLI and an interactive HTML5 Canvas visualizer; handled disconnected grids and boundary errors, tested on grids up to 20×20.
- Built a comparison mode benchmarking all four algorithms (cells explored vs. path length) with Chart.js, plus recursive-backtracker maze generation.

EXPERIENCE

AI & Machine Learning Intern — RD Infro Technology *Oct 2026 – Present*
- Contributing to real-time AI/ML projects spanning data preprocessing, feature engineering, ML algorithms, deep learning, model evaluation and deployment, using Python, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy and OpenCV.

Campus Ambassador — eDC IIT Delhi (Virtual) *Dec 2025 – Feb 2026*
- Ranked among the best Campus Ambassadors (per Letter of Recommendation); grew social reach and footfall for BECon 2026.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, JavaScript
ML & Data: Supervised learning, CNN image classification, online learning and concept drift, EDA, feature engineering, model evaluation, risk profiling
ML Libraries (internship): TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV; River
GenAI: Prompt Engineering, LLM agents (in progress), Responsible AI
Backend & Tools: Flask, REST APIs, Apache Kafka, H2, Git, GitHub, MS Excel, HTML5 Canvas, Chart.js
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems; HackerRank 5-Star Python Badge

CERTIFICATIONS & VIRTUAL EXPERIENCE

- **Tata (Forage), Sep 2026:** GenAI Powered Data Analytics: EDA, risk profiling, delinquency-prediction model planning.
- **Deloitte (Forage):** Data Analytics (Jan 2026). **JPMorgan Chase (Forage):** Software Engineering, Kafka/H2/REST (Oct 2025).
- **GenAI:** Career Essentials in Generative AI (Microsoft & LinkedIn); AI Fluency (Anthropic Academy), both Sep 2026.
